**RE: City's Proposed Blight Law and Vail Ranch Perimeter Walls**

Dear Council Members,

As a member of the Redhawk Community Association and resident of the City of Temecula I would like to express my support for the proposed blight law. All neighborhoods including Redhawk are dealing with non-maintained homes with dead lawns as a result of bank foreclosures. The City's passing and enforcement of the blight law will benefit all residents of Temecula during this difficult time.

In addition, I would like to ask the City to address the perimeter block walls of Vail Ranch. The perimeter walls are located on Vail Ranch Parkway, Nighthawk Pass and Butterfield Stage Road. Due to lack of maintenance, these walls are greatly in need of paint and as a result they are unsightly and have a negative impact on Vail Ranch, Redhawk and the entire City.

Your consideration of the above is greatly appreciated.

Sincerely,
